EDUCATION

2011-Present Ph.D. Plant Pathology, Oregon State University (OSU), Corvallis, OR.

Expected 2017

2007 **B.S. Biology**, *Truman State University (TSU)*, Kirksville, MO.

Minor: Chemistry

RESEARCH

2012-Present Thesis Research, Grünwald Lab, OSU, Corvallis, OR.

My goal is to determine pattern and process in the evolution of the plant pathogen *Phytophthora syringae* by utilizing population genomic tools to analyze genetic differentiation within and among nursery populations.

Details:

- o Designed simulation analyses for populations of partially clonal diploids
- Authored R package for genetic analysis with mixed (sexual/clonal) reproduction (https://github.com/grunwaldlab/poppr)
- Isolated, maintained, and extracted DNA from cultures of *Phytophthora syringae* for the purposes of Genotyping By Sequencing.
- o Research Advisor: Dr. Niklaus J. Grünwald
- Aug-Dec Rotation, Jaiswal Lab, OSU, Corvallis, OR.
 - 2011 Engaged in various research projects combining bioinformatic-based text mining of databases, wet lab, and greenhouse work. **Research Advisor: Dr. Pankaj Jaiswal**
- 2006–2007 Undergraduate Research Assistant, Biology Discipline, TSU, Kirksville, MO.

As part of a team of undergraduate students, contributed to the annotation of over 2,000 maize genes determined by microarray hybridization analysis to be involved in maize shoot apical meristem functional and leaf primordial formation.

Details

- Became proficient in performing and interpreting BLAST and InterProScan searches on sequences, identifying and assessing pertinent primary literature, and using a variety of databases to determine the putative function of maize genes.
- o Collaborated with other researchers on the same project.
- o Research Mentors: Drs. Brent Buckner and Diane Janick-Buckner

SOFTWARE

Main Author

poppr R package for analysis of populations with mixed reproductive modes

Contributor

adegenet R package for multivariate analysis of population genetics

phytophthora- Web application for identification of clonal lineages of two Phytophthora species id

TEACHING

2014 Population Genetics in R, Workshop.

Co-instructed a workshop with Niklaus Grünwald and Sydney Everhart. This workshop introduces tools and concepts that allow researchers to easily perform population genetic analyses in the R statistical environment.

Sessions:

- o May 17, 2014 Oregon State University
- o August 9, 2014 American Phytopathology Society (APS) 2014 National Conference

Spring 2012 Graduate Teaching Assistant, Biology Dept., OSU, Corvallis, OR.

Lead laboratories of \sim 48 students in organismal diversity, organ systems, plant and animal physiology, genetics, evolution and ecology.

Responsibilities:

- o Developed introductory presentations for quizzes and labs
- Proctored all tests and guizzes
- o Graded assignments and provided students with timely feedback
- Held office hours once a week

2009–2011 English Instructor, Herald NIE, Joong-Dong, Daegu, South Korea.

Taught basic to intermediate English to Korean students ranging from elementary to middle school with an emphasis on task-based learning techniques.

Details:

- Took charge of 18 different classes per week
- Monitored language acquisition of each student via monthly evaluations based on interviews and speaking tests
- Wrote tests, assigned and graded homework pertinent to the level of the students. Initiated and mediated interesting topics for discussion courses

2008–2009 English Instructor, GnB English, Sangin-2-Dong, Daegu, South Korea.

Taught basic to intermediate English to Korean students ranging from elementary to middle school in tandem with one of the nine Korean English teachers at the academy.

Details:

- Assisted with at least 30 different classes per week
- Monitored language acquisition of students throughout the year
- Gained the ability to be prepared for sudden changes in cirriculum and classroom size.

Fall 2006/07 **Undergraduate Teaching Assistant**, *Biology Discipline*, TSU, Kirksville, MO. Appointed as teaching assistant for undergraduate cell biology course.

Details:

- Helped prepare instructional labs for students of Dr. Diane Janick-Buckner's Cell Biology Students
- Responded to student lab questions and referred to professor questions outside of my expertise/knowledge base

OUTREACH AND SERVICE

2012-Present Radio Co-host, Inspiration Dissemination, KBVR FM, OSU, Corvallis.

Co-created, produced, and hosted a weekly radio show interviewing graduate students in STEM fields about their research and experiences in graduate school.

Details:

- Provided opportunity for graduate students a unique form of outreach.
- Facilitated education of media students by providing audio editing opportunities post producing recorded episodes.
- Actively worked with graduate students to improve their science communication skills.
- 2012-Present **Active Contributor**, *Bioinformatics Users Group*, OSU.

Contributed presentations and discussions relevant to use of bioinformatics tools.

2004–2007 Radio Announcer, KTRM FM, TSU, Kirksville, MO.

I ensured successful operation of the transmitter, covered extra scheduled shifts to ensure KTRM stayed on air, and selected appropriate play-lists for listeners.

LEADERSHIP

2012–2014 **Treasurer**, *Graduate Student Association*, Department of Botany and Plant Pathology, OSU.

Balanced the budget, served on bi-annual travel awards committee, helped organize and coordinate group social functions.

Summer 2005 Summer Station Manager, KTRM FM, TSU, Kirksville, MO.

I was the primary authority on personnel decisions, after input from team members. I organized the weekly schedule of DJs, determined the salaries of station directors and balanced a budget.

AWARDS

- 2014 OSU Botany and Plant Pathology Anita Summers Travel Award \$1000
- 2014 Most Innovative [Radio] Program Intercollegiate Broadcasting System
- 2013 Seattle Institute For Statistical Genetics Travel Award \$450
- 2006 Truman State University Summer Research Stipend \$3000
- 2003 Truman State University Presidential Leadership Scholarship \$2000

Computer skills

Advanced R

Intermediate PYTHON, PERL, C, $\Delta T_E X$, OpenOffice, Linux, OSX

Basic BASH, Inkscape

LANGUAGES

English Mother tongue Korean Intermediate

Can manage basic conversation
